

EPR LAWS: STAY AHEAD. STAY COMPLIANT. STAY COMPETITIVE.

Deadlines are here. Navigate compliance with confidence.

Extended Producer Responsibility (EPR) laws are here—and they affect more than companies based in EPR states. If your products are sold into those markets, the requirements apply to you too. Confusing rollouts make tracking hard and incomplete data risks costly penalties.

Ignoring them or figuring it out alone can cost you.

PTIS simplifies sustainability reporting and optimizes your packaging opportunities - combining world-class data management with deep regulatory expertise.

PTIS ADVANTAGE

PTIS makes compliance simple. We interpret complex legislation, calculate fees, and organize packaging data into ready-to-file reports so you can be in compliance without wasted resources. Additionally we identify ways to optimize packaging and reduce EPR fee impact.

STRATEGIZED SERVICES

Confidence in every deadline. Our services include:

- Compliance Mapping & PRO Registration
- Data Analysis & Comprehensive Reporting
- Packaging Risk Reviews & Market-Specific Guidance
- Reporting Software, Subscriptions & Consulting
 - Identify new material options to reduce fees
 - Estimate potential fees to plan future impact

COMPETITIVE RESULTS

With accurate supply chain data, clear guidance, and ongoing updates, PTIS helps you stay compliant and competitive as EPR laws evolve.
